Afternoon Sessions – Parallel Discussion Workshops

Guided Discussion Workshops. Two sessions will be run in parallel, please confirm which session you would like to attend so we can manage numbers.

13:30

<p>Working Towards a National Coastal Defence Asset Register What do we do now, and what is the plan for the future?</p> <p>Chair: C. Thompson</p>	<p>The use of Coastal Monitoring Data to Support Business Cases We've heard it before and we will hear it again...it's all very well collecting all this data but what do you do with it?!</p> <p>This workshop will cover some of the practical ways the data can be used to benefit the coastline and invites discussion on how authorities use the RCMP data - in particular the benefits of RCMP data in supporting projects and also some of the limitations in its application.</p> <p>Chair: C. French</p>
